Thanks Abel. We will include this information with the other comments we received during the comment period for the OR 2012 report, and will consider it when making our final assessment decisions. We will also respond to it in our Response to Comment document that will be issued with our final action.

Please let me know if you have any other questions or concerns.

Hi Jill,

I am glad is in. I want to also apologize for not tracking this before. I hope you can still use the data for the next report.

Hi Abel,

Yes, my mailroom just called and said they are bringing it up. Thanks so much and I apologize if the black hole was on our end.

Hi Jill,

Here is the FedEx tracking number [779391356625](#) and I also attached the FedEx label. It should get there tomorrow morning.

Thanks

Abel

Thanks Abel. I'm not sure what or where the issue is. If you could send the FedEx number once you've had a chance to send it, that would be great. Can you please also confirm how it is addressed, so I can put mailroom folks on alert?  
Thanks.

Hi Jill,

Sorry to hear you have not received the supplemental information from us. I resent you an USB memory flash last month with our submission and data links via priority mail from Washington DC. I am sending it again this morning via Fedex as soon as I get to the office. I will send you the Fedex tracking number as well. I am also uploading the data files to an online repository this time.

Here is the link to our submission (letter, references, data).  
[https://drive.google.com/open?id=0B\\_C25DFMebcuLW1iLVNTci1QUE0](https://drive.google.com/open?id=0B_C25DFMebcuLW1iLVNTci1QUE0)

Note that data files from the Ocean Observatories Database are quite large (more than 1 GB), so the datasets are linked to the original online repository. In other words, open the text file, copy and paste then data link to you browser and the data will be downloaded directly to your computer.

Please let me know whether you are able download everything or receive the physical copy by tomorrow. If you have any questions feel free to call me at my office (510-844-7130).

Sincerely,

Abel

Hi Abel,

I'm following up on my email from last month. I still have not received any kind of supplemental comments or information from CBD. Can you please let me know if you've tried to send them again, or if you still plan to do so? If you still intend to send something, I would address it directly to me at the address below, and be sure to include "OWW-192." That is the mailstop number, and while things usually find their way to me without it, in this case I would be sure to add it. Please try to get any additional comments to me by June 30, so that we may consider your comments before taking our final action. Thank you.

Thanks Abel. It might work? I can usually download from an FTP site. It just depends on our security/firewall, so it's a bit unpredictable. I'm in the office for only a few hours today, so likely wouldn't be able to try it until Monday (in case there is a 24 hour expiration on the link.)

Do you recall if you addressed it directly to me? Like I said, I've hunted all over, but if you addressed it to my Director or Administrator, I will look again. Thanks.

Hi Jill,

I am sorry to hear you didn't get the CD. I might have the certified mail number on my records, but I am in Washington DC working for the next couple of weeks and that is in my office in CA. I can try to put everything that was in the CD available online for you to download. I will send you the link at some point today when everything is uploaded. Does that work?

Thanks

Abel

Hi Abel,

You indicated in your original email to me that you had sent, or were going to send, a package via postal mail that would include a CD with additional references and/or data as part of your comment submission. I have never received it. Do you either have tracking information, or could you tell me if it was addressed to me or someone else here? I have checked with all the other possibilities I can think of, such as my upper management, but it doesn't appear that anyone has received it. It sometimes takes 2-3 weeks for things to get to me, but we are well beyond that, so I'm not sure what happened. Is it possible to resend it? Thank you so much. Please call if you need more information. Thanks.

Dear Jill Fullagar,

Thank you for the confirmation email that you received our comments. Looking at the email from yesterday, I realized I sent you a version of the letter that was not the final. Attached is the final and correct version of the letter. Could you confirm that EPA would consider this version? I understand the deadline was yesterday.

I sincerely apologize for this error.

Thank you,

Abel

Dear Jill Fullagar,

Please find attached a letter from the Center for Biological Diversity regarding a request for public comment on ocean acidification impacts in Oregon's marine waters.

A hard copy of this letter, a CD with all references cited, and associated ocean acidification data for several Oregon sites were sent by postal mail.

Let us know if you have any questions.

Sincerely,

Abel
